About this Report

This report is prepared and printed for your benefit and is intended to give you a complete picture of your town and schools — What has been done, where the money went, and what faces us in the future.

Town matters appear in front of the book and school affairs are recorded in the back of the book.

We endeavor each year to improve your report to make it readable and understandable. If you have any suggestions as to how we might make further improvements, please let us know.

Thank you,

YOUR TOWN OFFICERS

THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

*To the Inhabitants of the Town of Candia, N. H., in the
County of Rockingham in said State, qualified to vote
in Town Affairs:*

(L. S.)

You are hereby notified to meet at Moore School Auditorium in said Candia on Tuesday, the fourteenth day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

The following articles to be taken UP AT 8.00 P.M.

3. To see if the Town will vote to adopt the following Building Regulations as authorized under Sections 2-5 inclusive, Chapter 156, N. H. Revised Statutes Annotated, 1955.

1: No dwelling shall be erected, unless in with the following:

a. Foundations: All dwellings shall be set on solid foundations of cement, brick, stone or other acceptable masonry.

b. BUILDING: Must be framed according to good buildings practices and outside walls shall be covered with permanent materials customarily used such as wood, or fire resistant shingles, siding, clapboard, brick, stucco, concrete or cinder block or other acceptable materials.

c. Minimum Building Area: Every dwelling unit to be by a single family shall have a minimum ground floor area of four hundred square feet.

d. CHIMNEY CONSTRUCTION:

(1) No chimney shall be built, erected, or altered below the roof unless containing a tile or brick lining and with an iron cleanout door at or near its base, and shall extend at least 18 inches above the peak of the roof. No chimney shall be built, erected or altered below the roof having wood or other combustible materials within one of the chimney and no chimney shall have its base resting upon any floor or base of combustible material.

(2) No smoke pipes shall be installed or erected so as to be within unless amply protected with non-combustible material. No smoke pipe shall be installed or erected which passes into or through partitions or walls of combustible material, except when guarded by a double collar of metal with air space of at least five (5) inches, or by at least five (5) inches of brick or other non-combustible material.

2: Board Of Adjustment: The Zoning Board of Adjustment shall act as the Board of Adjustment.

3: Enforcement: The Board of Selectmen shall act as Building Inspectors and the issuance of Building Permits.

4: Takes effect: This Ordinance shall take effect upon its passage.

4. To see if the Town will vote to raise and appropriate the sum of one hundred twenty four dollars and sixty-eight cents (\$124.68) per year to have installed and maintained a fluorescent street light to be located at the junction of Route 101 and Adams Road. This article is submitted by

REPORT OF FOREST FIRE WARDEN

To the Selectmen:

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose locally in preventing fires. The following is offered with the respectful request for publication in your town report.

Sincerely,

MERLON A. WEBBER,
District Chief

Prevention Is Your Business

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed — all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First — by setting a good example YOURSELF — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second — by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles — make sure they are out — use your ash tray.
5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires	None
Number of acres burned	None
Number of permits issued	45

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

February 1, 1961

To the School Board of Candia:

In submitting my fourteenth report as superintendent of schools in Candia, may I express my thanks and appreciation for the kindnesses received from the board and staff members, as well as the citizens with whom I have had the pleasure of being associated since the fall of 1947.

Again this year we must be concerned with the budget. For a number of years the school budget has absorbed the greater part of the money raised by the town. This is inevitable. However, the two items which are responsible — teachers' salaries and tuition — form 75% of the entire amount to be raised for education. This leaves retirement — \$3,457.05 which is closely related to salaries; debt and interest — \$5,885.00; fuel and janitors' salaries — \$4,250.00; books and supplies — \$3,700.00; and other administrative, statutory, and miscellaneous items.

Our teaching staff still remains at ten full-time instructors, a supervising principal, and two part-time music men. Five of these teachers are replacements. The enrollment is approximately the same as a year ago with estimates that show it will increase slightly in 1961-62. However, the distribution of the youngsters will be a deciding factor in the administration of the school.

There are two classes in Grade 5 with a total of 43 children. But there is classroom space for only one group in Grade 5 in the new building. Then, too, there will be 38 pupils in Grade 7 and 38 pupils in Grade 8. And the census report indicates that there will be very close to 40 young-

sters who will enter Grade One in September. This is a problem that must be solved.

We have reached a period in the school where we must think very seriously of expanding again. If our estimates are correct and we continue to grow in the next five years, then our classroom space will be insufficient and an addition will be necessary. This is much more serious because the classrooms in the old building do not meet modern day specifications. In the building guide published by the State Department of Education it states that each child is entitled to from 30 to 35 square feet of floor space and that a classroom in the elementary school should be at least 850 square feet for not more than 25 children. We have seven rooms in our buildings which house more than 25 pupils each. It is also recommended that in the first three grades more space should be allowed in order that the children of this age may have room to move around freely and work in learning to live with one another.

According to the Per Capita Tax it is costing the district \$82.00 more in 1961-62 than this year which shows that although the number of children in the Moore School was almost constant, the overall number attending both the elementary and secondary schools increased by 41 children.

We are now in the second year of the music program which, under the direction of competent instructors, has demonstrated conclusively the value of its educational need.

Probably the most important recommendation relative to the maintenance of the plant is an overall painting job inside the old building. A few years ago certain floors were sanded and refinished in the old building, but the rest of the rooms were never completed. If these remaining rooms and the corridors were done it would preserve them and lighten the entire building. Perhaps this is the year in which we could make the start.

Last year more hot top was laid. More of this should be done for both a parking area as well as a play area.

In checking the inside of both buildings it was found that in addition to the painting, the replacement of worn out shades and general repairs of the ceilings and walls should be considered carefully.

For a number of years now, in driving past the school and observing the activity of the children at the rear, it has occurred to me that if a driveway could be made in front of the old building, it would not be necessary for buses and automobiles to go around the building. This would increase the safety of the children who never play in front. The children could then board the buses from the front door of the old building and walk over from the new building in safety. A plan of this nature should not be costly and it would greatly protect the children.

It is a great satisfaction to me to know that in purchasing a bus the district has reduced the cost of this item in the budget. The cost of transportation this year will be approximately \$10,400.00 as shown on the 1960-61 budget. However, the amount estimated in the 1961-62 budget is \$7,600.00. This is a saving of \$2,800.00. Credit is due to Mr. Edward Wynot for his untiring effort in making this project operate smoothly and profitably. It is also gratifying to me to see Candia join the towns of Allenstown, Hooksett, and Pembroke in this Union in this important forward step in the transportation of the children of the district.

In the years of my association with the members of the various school boards, I consider it my good fortune to be able to state that every individual elected to the position has been vitally interested in the education of the children of the town and it has been a privilege as well as a pleasure to serve you and your children for the last 14 years. It is my hope that in serving you I have been able to make you cognizant of the magnitude and importance of the problem of education not only in Candia, but also in the state and nation.

Respectfully submitted,

MURRAY H. WATSON,
Superintendent of Schools
